

Contribute to the Kazuma Forest Reserve Vision

Dear contributor

The Department of Forestry and Range Resources is preparing the Kazuma Forest Reserve Management Plan. This is being funded by JICA and prepared by Ecosurv.

The KFR's core management objectives include, protecting the conservation estate and enhancing community involvement and benefits. We would therefore like to develop a vision for the management plan which meets the requirements of Batswana especially those that live near to the forest reserve.

We ask that you to kindly assist us in this process by completing the following survey. It starts with a few attitudinal questions, is followed by the strengths and weaknesses (SWOT) and ends with your ideas on a vision for its management and use. There are a total of 19 questions.

Please note that all names and contact details provided will be treated with confidentiality. We thank you for your valuable time and assistance.
